

NEW MILLENNIUM TAX SERVICE

It's been a busy year for New Millennium Tax

Did You Know? During 2011 we serviced 98% of our clients without scheduling face-to-face appointments. By utilizing fax, email, and regular mail, these clients were saved the hassle of making time in their busy schedules to drive in traffic and wait around in an office just to meet with us for a 30 minute appointment. Take comfort and convenience in knowing that your tax returns will be completed with the utmost care without you ever having to step foot in our office. We conduct telephone consultations prior to filing each return.

You spoke and we listened! Our clients have the option of receiving tax return copies via email for quicker delivery and easier storage. With the average tax return consisting of 20 pages, we can save one ream of paper for every 25 tax returns that we do not print. This also reduces the need for printing duplicate copies of returns for clients that misplace them years later.

Help us make this Green Initiative a success by opting to receive your returns via email.

New Millennium Tax is proud to announce our new partnership with 93.5 FM Link-Up Radio. Tune in to hear us broadcasting live throughout the tax season.

Wishing you and yours Happy Holidays and a prosperous New Year!

“Like” us on Facebook and visit our website for the latest tax news and updates throughout the year.
